

**LEX**

for Solo Voices, Mixed Choir and Chamber Orchestra

Full Score

**Paul Frehner**  
2019

(Revised 19.07.2022)

## **Voices and Instrumentation**

Soprano Solo  
Mezzo Solo  
Tenor Solo  
Baritone Solo

Double Mixed Chamber Choir - 24 voices, 12 voices per choir (suggested minimum)

Keyboards – 1 player

Moog Subsequent 37 analog synthesizer (or similar analog synthesizer)  
88-note MIDI controller keyboard for triggering patches on Native Instruments 'The Giant' virtual instrument

Other gear:

Computer running Native Instruments 'The Giant' virtual piano  
Audio Interface with at least 1 line-level input, 1 MIDI input, and stereo line level outputs  
Two powered speakers for amplifying the output of the two keyboards. These should be placed on the stage near the keyboardist, but wide enough to give a stereophonic field.  
Stereo Reverb and Digital Delay effects for the Moog Subsequent 37. These may be run through either a hardware unit or as a software plugin in a DAW.  
MIDI or USB cable to connect the 88-note MIDI controller to the interface  
One 1/4" instrument cable to connect Subsequent 37 to the interface  
Two balanced cables (XLR or 1/4") to connect audio interface to the powered speakers  
Other cables maybe required if running an outboard digital delay unit

Percussion - 1 player

2 Triangles, of different sizes or made of different materials, contrasting beaters (plastic, metal)  
Pitched Gongs, tuned to Db2, F2, A2, F4, Ab4, Db5, D5  
Frame Drum, such as a darbuka  
Calabash (or similar drum, but a different drum than the 'frame drum' mentioned above)  
Timpani: 32", 25"  
Bass Drum

Strings – 4/4/3/3/2 suggested minimum

## **Performance Notes**

### Note on the choir parts

The choral sections in *LEX* are composed at times for a single SATB choir and at other times for double SATB choir. With this varied format in mind, the chorus should be positioned on stage with Choir 1 on one side, left or right, and Choir 2 on the opposite side. If possible, there should be some physical space between the two choirs. The sopranos of each choir should be positioned at the furthest extremities, left and right. The other voices in each choir can be positioned according to the direction of the conductor. This positioning will emphasize the (equal and opposite) spatialized stereophonic imaging that has been composed into music in the passages that make use of the double choir – movements II, IV, V, VII and VIII. The score always specifies whether sections from Choir 1 or Choir 2, or if sections from both choirs should sing a given passage

### Note on the keyboard part

The signal levels of the two keyboards should be carefully balanced with each other. Furthermore, the Moog Subsequent 37 keyboard should be carefully balanced against the strings, the lower strings in particular, so that a true blend of sonority is achieved. The Moog and lower strings combination should sound slightly electric but mostly acoustic. If a Moog Subsequent 37 is not available the part can be played on another similar analog synthesizer. To facilitate this, detailed oscillator, filter, envelope and LFO settings are provided in the individual keyboard part. To obtain the patches for the Moog Subsequent 37 part please contact the composer at [info@paulfrehner.com](mailto:info@paulfrehner.com). The passages with Native Instruments' The Giant use the plugins' standard presets. These can be tweaked for balance and moderating the presets' reverb settings.

### Setup Time for Keyboards

It is recommended that the keyboardist has 2 hours in the hall to set up the rig and to test it out to ensure proper functionality and to fine tune the balance between the two keyboards. It is also recommended that a portion of the rehearsal time is spent on soundcheck to ensure a proper balance between the keyboards and the strings.

### Notation

Accidentals function in the traditional manner. However, cautionary accidentals are frequently used.

Duration: ca. 37 minutes

## Texts

### I. Lex I

The divine reveals itself in the physical world  
*Albert Einstein*

I. Corpus omne perseverare in statu suo quiescendi vel movendi uniformiter in directum, nisi quatenus illud a viribus impressis cogitur statum illum mutare.

*Isaac Newton, First Law of Motion. Philosophiæ Naturalis Principia Mathematica*

veha'arets hayetah tohu vavohu vechoshech al-peney tehom veruach elohim merachefet al-peney hamayim  
*bereshit 1:2*

### II. shamayim – coeli et terrae

sham mayim  
esh mayim  
shechakim  
hashamayim  
shamayim  
*textual fragments*

Credo in unum Deum  
Patrem omnipotentem  
Factorem coeli et terrae  
Visibilium et invisibilium  
*fragment from the Nicene creed*

vayomer elohim yehi rakia betoch  
hamayim vyhi mavdil beyn mayim lamayim  
*bereshit 1:6*

vay'hi-erev vay'hi-voker yom sheni  
*bereshit 1:8, fragment*

Vox Domini super aquas;  
Deus maiestatis intonuit,  
Dominus super aquas multas.  
*Psalm 29, 3*

### III. Lex II

I. Corpus omne perseverare in statu suo quiescendi vel movendi uniformiter in directum, nisi quatenus illud a viribus impressis cogitur statum illum mutare.

II. Mutationem motus proportionalem esse vi motrici impressæ, et fieri secundum lineam rectam qua vis illa imprimitur.

*Isaac Newton, First and Second Laws of Motion  
from Philosophiæ Naturalis Principia Mathematica*

## Translations of Latin, Hebrew and French Texts

### I. Lex I

I. An object at rest will remain at rest unless acted upon by an external and unbalanced force. An object in motion will remain in motion unless acted upon by an external and unbalanced force.

*Isaac Newton, First Law of Motion. Philosophiæ Naturalis Principia Mathematica*

The earth was without form, and void; and darkness was on the face of the deep. And the Spirit of God was hovering over the face of the waters.

*Genesis 1:2*

### II. shamayim – coeli et terrae

There is water, over there  
Fire water  
The skies, (or, the expanses)  
The Heavens  
Heavens  
*textual fragments*

I believe in one God,  
the Father almighty,  
maker of heaven and earth,  
of all things visible and invisible.  
*fragment from the Nicene creed*

Then God said, "Let there be a firmament in the midst of the waters, and let it divide the waters from the waters."

*Genesis 1:6*

So the evening and the morning were the second day  
*Genesis 1:8 fragment*

The voice of the Lord is over the waters;  
The God of glory thunders;  
The Lord is over many waters.  
*Psalm 29, 3*

### III. Lex II

I. An object at rest will remain at rest unless acted upon by an external and unbalanced force. An object in motion will remain in motion unless acted upon by an external and unbalanced force.

II. The alteration of motion is ever proportional to the motive force impressed; and is made in the direction of the right line in which that force is impressed.

*Isaac Newton, First and Second Laws of Motion  
from Philosophiæ Naturalis Principia Mathematica*

#### IV. Hide

Cette passion est peut-être la seule qui puisse nous faire désirer de vivre, et nous engager à remercier l'auteur de la nature, quel qu'il soit, de nous avoir donné l'existence.

*Emilie du Châtelet, excerpt from Discours sur le bonheur*

Water. Streets are coated,  
flat roofs sag. There has been  
a great spillage, a nightlong  
letting go. A fat dog stands  
foursquare in the road,  
hypnotised by rain  
and car horns.  
We were lost last night,  
between the shutter slats  
and curtain's swell. The sap  
of each of us – Our electricity –  
escaped among the vixen cries,  
the cherry trees'  
black blossoms.  
Now your voice is thinner,  
and you listen for the missing  
notes in mine. Your skin  
is stripped of conductivity, as dead  
as silk. Behind your eyes  
lie memories learned by heart.  
We have gone  
but in our place are replicas,  
exact in every blemish.  
We begin to act the day.  
It is understood that since  
our simulacra are so perfect,  
we will go on as if  
nothing changed.

*Michael Symmons Roberts, 'Hide' from Corpus*

vaivra elohim 'et ha'adam betzalmo  
betzelem elohim bara oto  
zachar uneqevah bara otam  
*bereshit 1:27*

vayevarech otam elohim  
vayomer lahem elohim pru urevu  
*bereshit 1:28 excerpt*

décidons-nous sur la route que nous voulons prendre pour  
passer notre vie, et tâchons de la semer de fleurs.

*Emilie du Châtelet, excerpt from Discours sur le bonheur*

This passion is perhaps the only one that could make us desire living, and we thank the author of nature, what he is, for giving us existence.

*Emilie du Châtelet, excerpt from Discours sur le bonheur*

And God created man in his own image; In God's image he created him; male and female he created them.

*Genesis 1:27*

And God blessed them, and God said to them, "be fruitful and multiply..."

*Genesis 1:28 excerpt*

Let us choose for ourselves our path in life, and let us try to strew that path with flowers.

*Emilie du Châtelet, excerpt from Discours sur le bonheur*

## V. The Box, Part I

In case of catastrophe,  
winter can be recreated  
from this skeleton of leaf.  
All the bitter subtleties  
of crab apple are tangled  
here, as is the DNA  
of dew-point, calibration  
of the second when a tree  
lets go, the recipe for clouds  
on the horizon like a new  
born mountain range,  
like north itself.

*Michael Symmons Roberts, excerpt from the poem  
'The Box' from Corpus*

## VI. Madame Zero

Apples would turn waxy,  
Then waste as she handled them:  
scarlet one bite, pink the next,  
Then she bit her fingers.  
An anti-Midas, she began  
to mistrust touch, the way  
her stroke could snuff the gentle  
light behind a cat's eyes,  
how cigarettes burnt backwards,  
ending in a puff of smoke.  
She could make the world primeval,  
pre-material, push it back  
Into the mind of God.  
She took to wearing kid gloves,  
but they vanished within minutes.  
Rough hide mountain mitts  
took half an hour to melt.  
She bound her hands with bandages  
as thick as boxing gloves,  
but nothing could protect  
the world from her caress.  
When the gift turned inwards,  
her blood began to turn to chalk,  
her heart withdrew into its beat.  
She walked the city streets all night,  
kissing strangers,  
then stood in an empty park  
and reached to touch the sky itself.

*Michael Symmons Roberts, the poem 'Madame Zero',  
from Corpus*

## VII. The Box, Part II

et septem angeli qui habebant septem tubas paraverunt  
se ut tuba canerent.

*Revelation 8:6*

vayikra elohim, larakia shamayim  
*bereshit 1:8, excerpt*

And God called the firmament Heaven  
*Genesis 1:8, excerpt*

...And with the leaf,  
this relic box contains  
a hair curl from a child  
to reconstruct humanity,  
though all the lights and currents  
of his soul are lost to us.  
Spores, antennae, claws,  
the box will hold all evolution.  
It will be full and empty.

*Michael Symmons Roberts, conclusion of  
'The Box' from Corpus*

So the seven angels who had the seven trumpets prepared  
themselves to sound

*Revelation 8:6*

And God called the firmament Heaven  
*Genesis 1:8, excerpt*

## VI. Lex III

I. Corpus omne perseverare in statu suo quiescendi vel  
movendi uniformiter in directum, nisi quatenus illud a viribus  
impressis cogitur statum illum mutare.

II. Mutationem motus proportionalem esse vi motrici  
impressæ, et fieri secundum lineam rectam qua vis illa  
imprimitur.

III. Actioni contraria semper et æqualem esse reactionem:  
sive corporum duorum actiones in se mutuo semper esse  
æquales et in partes contrarias dirigi.

*Isaac Newton, Three Laws of Motion from Philosophiæ  
Naturalis Principia Mathematica*

I. An object at rest will remain at rest unless acted upon by an  
external and unbalanced force. An object in motion will  
remain in motion unless acted upon by an external and  
unbalanced force.

II. The alteration of motion is ever proportional to the motive  
force impressed; and is made in the direction of the right line  
in which that force is impressed.

III. For every action there is an equal and opposite reaction.  
All forces occur in pairs, and these two forces are equal in  
magnitude and opposite in direction.

*Isaac Newton, Three Laws of Motion from Philosophiæ  
Naturalis Principia Mathematica*

## **Brief Note on the Work**

*LEX* is a work for vocal soloists, choir and chamber orchestra that explores the universal cyclical, and opposite, themes of creation and annihilation from multiple perspectives: the religious, scientific and the poetic. It is a large-scale composition that may be thought of as an oratorio or as a conceptual album of interrelated pieces. The libretto is compiled from several sources, that while disparate, nevertheless share certain philosophical and thematic commonalities. The principle texts incorporated in this work are “Hide”, “The Box” and “Madame Zero” from Michael Symmons Roberts collection of poems entitled *Corpus* and Isaac Newton’s “Three Laws of Motion” from his *Philosophiæ Naturalis Principia Mathematica*. Other texts include fragments from the book of *bereshit* (Genesis) from the Torah, a fragment from the Nicene Creed and brief quotations from physicists Albert Einstein and Émilie du Châtelet.

## **Permissions and Credits**

The texts of “Hide”, “Madame Zero” and “The Box” have been set with the permission of Michael Symmons Roberts (first published by Jonathan Cape Publishers).

The quote from Einstein has been set with the permission of the Albert Einstein Archives of the Hebrew University of Jerusalem.

Special thanks to:

David Catriel and Nicki Ishai for their assistance with the transliteration, pronunciation and accentuation of the Hebrew texts incorporated into this work.

*LEX* was commissioned by Soundstreams, with funding from the Ontario Arts Council. Funding for the preparation of the piano-vocal score and the instrumental parts was provided by the SSHRC Endowment Fund of Western University’s Don Wright Faculty of Music.

Composed in 2019 and revised in 2020 and 2022.

426

A musical score for 'B. Solo' on a bass clef staff. The lyrics are: 'your \_\_\_\_ voice is thin - ner, \_\_\_\_\_ and \_\_\_\_ you li - sten for the mis - sing'. The first two blank spaces under 'your' and 'voice' have vertical lines extending downwards, likely indicating where a vocal entry begins.

Calabash | :| :| :| :| :| :| :| :| :| :| :| :| :| :| :| :|

Musical score for Violin I (Vln. I) on a five-line staff. The score includes dynamic markings: a fermata over two measures followed by a *s.p.* (sforzando piano), a bass clef, a key signature of one flat, a *mp* (mezzo-piano) dynamic, a *ff* (fortissimo) dynamic, another *mp*, and a bass clef again. The score concludes with the instruction *ord.* (ordinario).

Musical score for Violin II (divisi). The score consists of two staves. The first staff starts with a dynamic of *ord.* (ordinarily). The second staff begins with a dynamic of *pp* (pianissimo).

Musical score for strings section. The first measure shows a rest. The second measure shows a rest. The third measure starts with a dynamic marking *mp* (mezzo-forte) followed by a crescendo line leading to a dynamic marking *ff* (fortissimo). The fourth measure shows a rest. The fifth measure shows a rest.

Musical score for strings (Vc., Cello, Double Bass) showing measures 11-12. The score consists of three staves. The top staff is for the Cello (Vc.), the middle staff for Double Bass, and the bottom staff for Cello. Measure 11 starts with a whole note on the Cello, followed by eighth notes on the Double Bass. Measure 12 begins with a half note on the Cello, followed by eighth notes on the Double Bass.

notes \_\_\_\_\_ in \_\_\_\_\_ mine. Your skin is stripped of con - duc - ti - vi - ty, as dead as

A musical staff for bass clef. The tempo is marked as 88 BPM. The staff consists of six horizontal lines. There are vertical bar lines dividing the staff into seven measures. Each measure contains a single eighth-note rest. The staff ends with a treble clef at the far right.

Musical score for Violin II, second ending. The score consists of two staves. The first staff begins with a dynamic of **Vln. II div.**, followed by a measure of rest. The second staff begins with a dynamic of ***pp***.

A musical score for a single instrument. It features a treble clef at the top left. Below the clef is a dynamic marking "pp" (pianissimo) centered over the first measure. The score is divided into five measures by vertical bar lines. Each measure contains a single vertical stem with a small horizontal tick mark near the top, indicating a short rest. The notes are positioned on the first, third, and fifth lines of the staff.

D.B.

The musical score consists of six staves. The top staff is for the Bassoon Solo (B. Solo) in bass clef, with lyrics written below the notes. The second staff is for the Calabash, featuring rhythmic patterns with '3' over groups of three notes. The third staff is for the CTRL (Control) instrument, marked '88'. The fourth and fifth staves are for the Violin I (Vln. I) and Violin II (Vln. II) divisions, respectively, both marked 'ord.' and 'p'. The sixth staff is for the Cello (Vla.) in bass clef, with dynamics 'f', 'p', and '3'. The bottom staff is for the Double Bass (D.B.) in bass clef. Various performance markings like slurs, grace notes, and dynamic changes are scattered throughout the score.

Music score for page 86, measures 673-679. The vocal parts (Soprano, Alto, Chorus 1, Tenor, Bass) sing a rhythmic pattern of eighth and sixteenth notes, with lyrics: se ut tu - ba ca - ne - rent. The Chorus 2 part enters in measure 676. The Timpani and Moog Sub 37 provide harmonic support. The lower strings (Cello and Bassoon) play sustained notes throughout. Measure 678 features a dynamic ***fff***. Measure 679 concludes with another ***fff***.

Sub 47 should be softer than cellos and basses.  
Diminuendos should be able to be achieved with the CF knob on the filter.  
If necessary, use volume knob to further reduce volume

Superbass patch      FILTER  
CF: 1100 Hz approx.      275 Hz
